

The **Certified Device List (CDL)** is the source document that details which devices (network, seat-attached) have been tested and certified on the current desktop Operating System (OS) for the NM OS will require a CLIN49 for certification to operate on the NMCI Enterprise.

#### How To Use the CDL:

- Review CDL device requirements on the Guidelines Tab
- Locate device on the OEM/Make column
- Verify device is certified for the user workstation operating system on the OS certified column
- If the OS of the user workstation is not certified for the device a CLIN49 will be required

In order to have a newly certified device added to this document, The Project Manager for the certification of the device must provide the information for each column to NMCI Workplace HWSW Ser

For print services information see <https://www.homeport.navy.mil/ctr/print-services>

For information regarding the CLINs available for installation, see <https://www.homeport.navy.mil/services/x049>
